

# Inspection Services

BURROW GLOBAL

## Improving Reliability, Enriching Performance

**Burrow Global** Inspection Services provides high-quality services using premium talent resources. Inspection Services is an important part of our business and we take pride in understanding each client's unique needs to deliver economical, quality and exceptional results.

In addition to instrument technicians and process operators for in-plant assignments, we also provide API and NACE inspection services, including on-stream, turnaround, shop surveillance and quality assurance for maintenance, mechanical integrity and capital projects.

## Our Personnel

- API 510, 570 and 673 Certified Inspectors
- Non-Destructive Testing (NDT) Technicians
- QA/QC Specialists
- Certified Welding Inspectors
- NACE Inspectors
- Instrument/Electrical/Analyzer Technicians
- CAD Operators with Hardware/Software to Document Findings
- Mechanical Integrity Program Managers

## Our Services

We have many capabilities including:

- Total Inspection Services
- Turnaround Inspection Staffing & Planning
- On-Stream Corrosion Surveys
- Non-Destructive Examination/Testing (NDE/NDT)
- QA/QC Inspections
- Setup and Management of Mechanical Integrity Programs

## Our Quality Assurance

Industrial facilities today face many challenges including the increasing demands of foreign and domestic competition, higher raw material costs, and reduced profit margins. Dependable, resourceful and competitively priced inspection services providers are essential to eliminate worries about equipment reliability and mechanical integrity. At **Burrow Global**, we define **Quality Assurance** as a demonstrated degree of excellence resulting in a state of mind in which our clients are free of doubt. Our Inspection Services Team provides traditional quality support coupled with expert, qualified personnel to both enhance your inspection programs and aid in the development of proactive quality programs, tailored to client-specific needs.

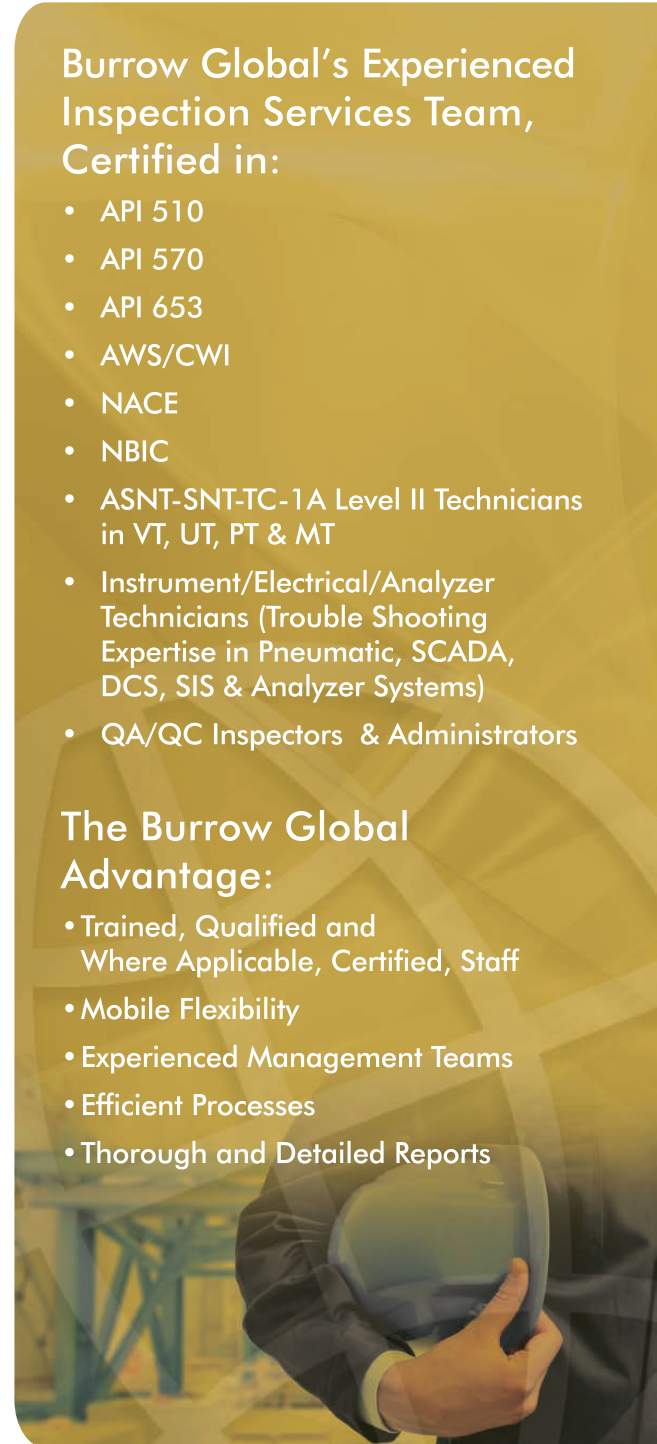

**Let Burrow Global's expert, certified inspection services team eliminate your equipment, piping and vessel reliability concerns.**
