High Ranking Confirms Burrow Global's Regional Strength

FOR IMMEDIATE RELEASE

BURROW GLOBAL

HOUSTON, TEXAS (June 28, 2016) Burrow Global, LLC (www.burrowglobal.com), a full-service EPC solutions provider with specialized expertise in automation, industrial buildings, plant commissioning/

startup and I&E Construction, has been listed as the #5 largest Texas and Louisiana design firm on [ENR's Texas & Louisiana Top Design Firms 2016](#). The industry-recognized annual ENR list identifies leading design and engineering firms in Texas and Louisiana, ranked according to annual revenue for design services. The same publication also ranked the Company as #3 largest in "Petroleum", which includes refining and petrochemicals, as well as midstream and oil field design.

Burrow Global has grown market share every year since its inception in 2010, going from "unranked" to its current ranking of #5. Organic growth combined with the acquisition of Furmanite Technical Solutions (FTS) in 2015, continues to strengthen Burrow Global's presence with eight offices now in the Gulf Coast region.

Mike Burrow, CEO and Founder, commented, "I am extremely proud that our company has been recognized as a Top 5 Design Firm for our Texas and Louisiana customer base. We are committed to continuing our successful history of customer responsiveness, quality performance and safe, on-time project delivery that has led to our growth. Our focus remains on meeting our customers' needs with superior local services."
